Bring your Historical Family Memories into the Digital Age

Do you have a collection of old Family Video tapes,
Films, Audio tapes or Slides hidden away?

Over years magnetic media ages and the sound
and picture quality deteriorates.

Even if videos and tapes are not used they may
still deteriorate.

TYPES OF MEDIA CONVERTED:

- Film - 8mm standard/regular and Super 8 (with or without sound)
- Film - 16 mm (with or without sound)
- VHS/Super VHS
- BETA Video/Super BETA
- Mini DV Tapes
- VHS C/Super VHS C
- 8mm Video (Standard 8, Hi 8 & Digital 8)
- Audio Cassettes
- Reel to Reel Audio Tape
- 35mm Slides
- Hard Disk Drive (HDD) Video cameras

DIGITAL FORMATS

As a FREE Bonus, video and audio are also converted
to Digital Video or MP3 Files and put onto a USB stick.

EDITING

All conversions include very basic editing.
If further editing is required, you are able to edit
yourself with most standard software on a
computer.

The Disks and Digital Files that we produce have
no special encryption or protection to prevent
you from copying or editing.

For best picture quality we usually put a
maximum of 90 minutes per DVD and 80
minutes per CD, which can be from multiple
films, video tapes or audio tapes

**2 copies of each Disk and a FREE USB
are provided,
(Extra copies can be made if required)**

Final quality of the conversion depends on the
condition of the original film, video, tape or
slides supplied.

All film and other media are returned to you.

Please note:

We cannot transfer copyright material without
the permission of the copyright owner.

This includes programs and footage recorded
from the T.V. and music taped from the radio.

Please turn over for Price Guide
